

SILOS METÁLICOS ZARAGOZA S.L.U., since its constitution more than four decades ago, directs its activity in the field of the production of metal silos and water tanks, all characterized by their functionality and level of quality.

As a result of the strong growth of our company's activity and faithful to our commitment to continuous improvement, we have implemented an integrated management system basing on the international standards ISO 9001 (Quality), ISO 14001 (Environment) and ISO 45001 (Occupational Health and Safety), moreover, the other standards of Social Accountability, according to which we assume the commitment to adopt a set of basic principles, applicable to all our products and processes, being the following:

- ✓ Achieving customer satisfaction, responding to all their needs and requirements.
- ✓ Complying with the legal and regulatory requirements related to the product and the service provided, as well as those applicable to the rest of the company's areas.
- ✓ Providing the organisation with all the organisational, human, technical and economic means necessary to increase the efficiency in the performance of its activities.
- ✓ Providing safe and healthy working conditions with a view of preventing possible accidents at work and occupational diseases, in a way that advocates eliminating hazards and reducing risks.
- ✓ Consulting and involve workers, through their representatives, in all decisions that may affect their safety and health.
- ✓ Ensuring the protection of the environment, preventing contamination of the environment through a sustainable use of the resources.
- ✓ Carrying out all our actions with different interest groups, prioritizing ethics and sustainability.

For the fulfilment of this policy, the collaboration of all the staff of the company is essential. They are obliged to know it, fulfil it and be involved in its correct execution through constant effort.

Signing this document, the company is committed to its application, which serves as a reference point for the establishment of its objectives. Furthermore, it undertakes to periodically review the management system to adapt it to the requirements of the environment and legal requirements when necessary.
